

GEMINI OBSERVATORY SCIENCE MEETING

A Virtual Science Meeting | 23–26 August 2021

For more information and to register, visit:
<https://noirlab.edu/science/resources/meetings/gsm2021>

Gemini Observatory invites our international user community to its first-ever Virtual Science Meeting! We envision this meeting as a combination of invited science talks, Gemini Observatory updates, and hands-on training sessions. It will also serve as a pilot for subsequent Virtual Science Meetings during the years when an in-person conference is not scheduled.
