

Colors of Nature Summer Academy

Do you love creating art?

Are you a girl entering the
5th, 6th or 7th grade next fall?

Apply for a one-week summer program, and let science be your inspiration. Explore the biology, physics, and nanotechnology behind the colors of nature while creating your own colorful masterpieces. The program is through the National Optical Astronomy Observatory. The Kitt Peak Summer Academy is free of charge to all students. Transportation to and from Sells will be provided.

Kitt Peak Summer Academy
July 6-10, 2020

9a.m. to 4p.m.

Kitt Peak National Observatory

Applications will be accepted
until the camp is filled.
