

Colors of Nature Summer Academy

Do you love creating art
and exploring color?

Due to the COVID-19 pandemic, Kitt Peak National Observatory is offering a virtual version of our Colors of Nature Summer Academy. Students in the Academy will have a kit containing art supplies and experiments to explore the nature of light and color shipped to their homes. Our instructors are preparing videos illustrating various principles of science and art to help you make the most of the materials provided. The videos will be provided on a memory stick, a DVD and online for students to access. The Arizona Sonoran Desert Museum will be providing video "animal encounters" for the academy.

The materials are designed for middle school students and are provided free of charge. Applications are due June 15th so we can ship the kits in late June.
