

KITT PEAK NATIONAL OBSERVATORY

VISIT KITT PEAK

EXPLORE ONE OF **THE LARGEST**
COLLECTIONS OF OPTICAL RESEARCH
TELESCOPES ON EARTH

"THE HIGHLIGHT OF OUR TUCSON TRIP"

— threedog, 5/5 Tripadvisor review

"UNRIVALED VIEWS OF THE NIGHT SKY"

— The Daily Mail

"SIMPLY BREATHTAKING"

— Peter S, 5/5 Google review

"PICTURES DON'T DO IT JUSTICE"

— Eva, 5/5 Yelp review

Kitt Peak National Observatory offers a chance to experience the inspiring discoveries and **epic skies** of a 'bucket-list' **astronomy destination**.

DAYTIME

Come take a guided tour of a 200-foot-tall observatory where astronomers are making the most detailed 3D map of the Universe ever created. Or walk inside the largest unobstructed reflecting telescope in the world: a massive solar observatory the size of the Statue of Liberty.

Starting at \$17.95 (includes admission)

EVENING

After an orientation and a light meal, our knowledgeable guides will take you on a sunset walking tour to point out the mountain's major observatories. Then you'll have time with our powerful Visitor Center telescopes for the chance to see stars, planets, galaxies and more from one of the most iconic stargazing destinations on Earth.

Starting at \$71 (includes admission)

OVERNIGHT

Kitt Peak is the largest research observatory in the world where you can stay overnight as a 'visiting astronomer' with exclusive access to one or more of our Visitor Center observatories. Led by a dedicated guide, your overnight experience lets you view as long as you want with the chance to take photos of what you see through our telescopes.

Starting at \$990 for 1 person or \$1,390 for a group of up to 4 people (includes admission)

The staff and astronomers at Kitt Peak National Observatory are honored to be permitted to conduct scientific research on I'oligam Du'ag (Manzanita Bush Mountain), in the homeland of the Tohono O'odham Nation. We honor their past, present, and future generations, who have lived here for time immemorial and will forever call this place home.
